FFA Youth Wins Dairy Tour Calf

Fifteen-year-old Joe Winstead outguessed 84 other boys and dairymen to win a registered Holstein heifer calf on the Randall County Dairy Tour Tuesday.

The calf, given by Louis Hinders, is to be Winstead's "start in the dairy business." It was presented as a prize for a class judging and production guessing contest held during the tour.

Those on the tour saw three of the top dairy herds in the area, saw Hinders and Neil Downing receive awards for the top producing cow and top producing herd, attended a luncheon in their honor at the Canyon Rotary Club and were guests at a chamber of commerce watermelon feed.

The awards were presented during the Rotary luncheon by Dick Burleson of College Station, extension dairy specialist. He gave a cup to Downing as owner of the top milk producing cow in the seven-county Dairy Herd Improvement Association.

Hinders was awarded a plaque for the top herd during the past year in the Randall County DHIA. The plaque is awarded annually by the chamber of commerce.

Burleson said Hinder's herd record equalled that set by the University of Wisconsin dairy herd for milk production and excelled it in butterfat. Hinder's herd average from 23 cows was 13,380 pounds of milk with 481 pounds of butterfat.

Downing's top cow, "Frosty," produced 18,008 pounds of milk and 767 pounds of butterfat during a 305-day period.

Young Winstead was one of the high school FFA students who attended the tour. He is a sophomore. Runnerup in the contest was Walter Cranmer, a junior in Canyon High School.

Rites Conducted For Dr. Boehning

Funeral services for Dr. H. H. Boehning of Abilene, former Canyon resident and brother of Walter Boehning of Canyon, were conducted Thursday in Abilene.

Burial was in Elmwood Memorial Park in Abilene.

Dr. Boehning, 61, was senior physician at Abilene State Hospital. He died Wednesday while visiting in Dallas.

He was born Dec. 13, 1893, in Elgin, Ill., and moved to Canyon when he was 11. He received his medical degree from Baylor Medical School in 1927 and went to Korea with Mrs. Boehning in 1928 as missionary.

In 1940, Dr. Boehning joined the Abilene hospital.

In addition to his brother here, survivors include his wife, Mrs. Grace Clark Boehning; a son, Dr. Harold Boehning, El Paso; two daughters, Mrs. Richard Archer and Mrs. Robert Clawson, both of Dallas; a sister, Mrs. Esther Sembritzke, Clyde; and four other brothers, Clarence Boehning, Abilene, Kenneth Boehning, Omaha, Neb., A. C. Boehning, Amarillo, and Willard Boehning, Wildorado.

Swimming Pool Closes Sunday

The swimming pool will close for the season after Sunday, Dudley Bayne announced today.

Earlier it was decided to keep the pool open until cool weather got here, and it got here almost the same day.

Attendance at the pool has been fairly light since the first of the month.

Spending the weekend at Trinidad and Raton were Mr. and Mrs. Jim Carter and Mr. and Mrs. G. L. Davis.

Committee To Ask for Charter

Nine Ideas Given for Cemetery; Open Meeting Scheduled Soon

A recommendation that the Randall County Cemetery Association be incorporated as a non-profit organization was adopted Monday night by a study committee appointed by the association. The recommendation was one of nine adopted by the committee, which also commended the work done in prior years by the association and the work of the chamber of commerce in sponsoring the recent cleanup day.

The committee lauded the work of the association through the years, handicapped as it was by the "sleeping interest of the community."

Included in the list of recommendations, which will be presented to a full-membership meeting of the cemetery association, were:

1. Reject all proposals that Dreamland Cemetery be operated by private corporations.

2. That the Randall County Cemetery Association be incorporated as a non-profit organization, take over operation of Dreamland Cemetery, and establish trust funds for future care of the cemetery. None but space owners may be members.

3. That the city commission be asked for financial aid during the formative period of the new organization.

4. That the county commissions be asked for financial aid during the same time.

5. That space owners and heirs of those buried in the cemetery be contacted for donations for both current expense funds and the trust fund.

6. That the water distribution system be renovated as a long-range project.

7. That the over-all landscaping be revised by reducing the number of plants, so as to allow those remaining a better chance to grow.

8. That existing improvements not be disturbed except by request of the owners or heirs.

9. That advice be solicited from interested persons as how best to effect the recommendations.

The committee, composed of Dr. J. A. Hill, chairman, Burney Slack, Milton Morris, E. M. Myers, Roland Black, Mrs. L. L. Byars, Mrs. C. O. Elkins and Bill Cherry, was appointed two weeks ago to study the various proposals for operating Dreamland Cemetery.

Early in August, the owners of Rest Lawn Memorial Park of Hereford, Inc., proposed to the county commission they purchase the cemetery.

Later, the owners of Memory Gardens of Amarillo, Inc., offered much the same proposal to the cemetery association.

Dr. Hill said another committee will be called in about two weeks to discuss any further proposals given committee members by citizens. The recommendations will then be offered in a public meeting for approval or disapproval.

If the recommendation to incorporate is approved, a second organizational meeting will have to be held some 30 days after notice of the meeting is posted and is published. At that time, the majority of the space owners present will elect a board of directors.

The directors will apply to the state for a charter.

By statute, only those who own at least one grave space in the cemetery may be a member of the corporation and each member has a voice in the operation of the corporation.

In a meeting of the committee last Friday night, Dr. Hill and Morris presented a report on the operation of a cemetery operated under perpetual care by an unincorporated association of space owners in Haskell.

In the cemetery there, no care is given spaces of non-members of the association except for an annual weeding. Only those who donate at least $50 to the care fund are members of the association.

The association in Haskell has been in operation for seven years and now has $49,000 in its endowment care fund. In addition to donating to the care fund, space owners are assessed $10 a year for operating expenses and are required to pay $25 a space for the land itself.

Black presented an estimate of the number of spaces still available in Dreamland Cemetery. He said there are 1,884 individual spaces in the new, undeveloped portion as well as 91 lots of two to four spaces.

In the old section of the cemetery, there are an estimated 250 spaces available.

He is preparing a map which will show those spaces used already and those which have a deed filed on them.

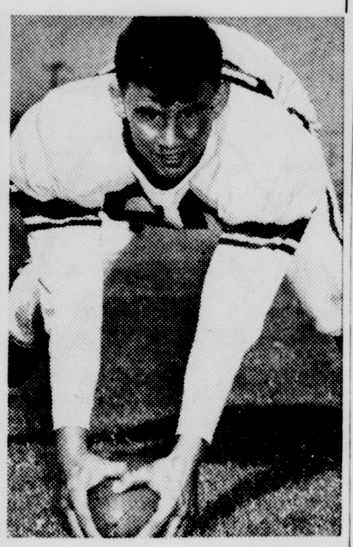
In adopting the recommendations, the committee expressed the hope that heirs of those buried in the cemetery would donate as much as possible to both the current expenses and the trust fund in order to give the organization a good start.

The recommendations to ask the city and county for aid were adopted in the hopes that those bodies could help with the first year or two of the life of the corporation —at that time when it will be the weakest.

Any interested citizen is asked to contact members of the committee with any suggestions he may have as to the operation of the cemetery.

Returning Buffaloes

Delmer Tuggle, 170-pound Panhandle fullback, was the Buffaloes' leading rusher in 1954 and is expected to repeat this year.



Tommy Powell, 190-pound Munday junior, made the Border Conference second team at center as a freshman.

* * *

Small Herd Plays San Angelo JC

The second week of two-a-day practice sessions brought a tempo speedup for the West Texas State Buffaloes.

Although the first varsity game in Canyon is Sept. 17 against Corpus Christi University, the B squad goes against the San Angelo Junior College Saturday night in San Angelo.

The young Herd, composed mostly of freshmen with a few sophomores, will tangle with the junior college at 8 p. m. A 25-man squad will leave early Saturday morning and will return to Canyon Sunday.

The Buffs' twice-daily drills will be cut to one-a-day Monday as the college fall semester begins.

So far, the emphasis has been on fundamentals in drills. Next week's work is expected to be on ways to outwit Corpus Christi strategy.

Scheduled for the trip to San Angelo are:

Ends, Carroll Gardenhire, 168; Jimmy Jones, 168; Tommy Walling, 195; Tommy Coffee, 190.

Tackles, Harold Lamb, 200; Bill Berry, 200; Don Raburn, 195; Wade Graham, 185.

Guards, Paul Emmitt, 180; Walter Holley, 180; Jerry Epps, 195; Elmer Clements, 165.

Centers, Billy Clark, 185; Clarence Whittenburg, 185.

Quarterbacks, Bob Davis, 160; Jack York, 175; Jim Dadaway, 170.

Halfbacks, Charles Sanders, 190; Mark Clapp, 164; Dale Cole, 160; Lindley Davis, 170.

Fullbacks, Dave Corley, 165; R. A. Burgess, 165; Fred Dawson, 180.

Mr. and Mrs. Jim Allee of Long Beach, Calif., and Mr. and Mrs. Ted Benson of Mooselake, Wash., were guests last weekend in the J. N. Killingsworth home.

Mr. and Mrs. Allan Farlow of Midland are visiting Mrs. Farlow's parents, Mr. and Mrs. T. C. Thompson.

Museum Visitors Nearing 60,000

Last Sunday brought 1,129 visitors to the Panhandle-Plains Historical Museum—one of the largest single-day crowds of the year.

That day's total and the 478 who registered Labor Day brought the year's total to about 58,500, according to Boone McClure, director.

With four months to go, the museum staff hopes to break the 80,000 mark this year, McClure said.

Erwins Recuperate In Hospital Here

Mr. and Mrs. C. B. Erwin and their daughter, Donna, remain in Neblett Hospital, recovering from injuries suffered Aug. 29 in a car-truck collision northeast of Canyon on a county road.

Miss Erwin suffered a broken right leg and a cracked left knee. Mrs. Erwin suffered a cracked pelvis and Erwin suffered a possible head injury. All are considered in "good" condition.

Miss Erwin was scheduled to begin teaching school this week in Dimmitt. She will begin later in the year, however.

Mr. and Mrs. F. A. Brewer of Denver, Colo., Mrs. J. A. Brewer of Childress, and Marcelle Brewer of Amarillo spent the Labor Day weekend with Mr. and Mrs. Lee Foster and Sally. Mrs. Alfred Wilshire of Claude spent Sunday visiting in the Foster home.

Buffalo Band Begins Practicing Sunday

The Buffalo Band will begin practicing Sunday, four days before the beginning of classes at West Texas State College.

"By organizing Sunday, we can work right through registration and be ready for the first game Saturday," Director M. J. Newman said.

Newman expects 100 players to report Sunday. Assisting him will be Bill Latson and David Kaplan.

J. L. Peyton of Manila, Philippine Islands, is visiting his parents, Mr. and Mrs. J. I. Peyton.

An Open Letter —

Dear Parents,

Your thoughtfulness and consideration in connection with the opening of school have been very gratifying to both the administrative and the teaching staffs.

The gracious manner in which you have accepted the new plan of enrolling in the elementary schools and the effectiveness with which you have prepared your children to accept it are most heartening.

The problem of getting the children to and from school has been worked out quite satisfactorily because of your willingness to help. Your continued co-operation in seeing that your children arrive at the proper time and, when possible, in picking them up promptly on dismissal will greatly facilitate the school program.

We are looking forward to a profitable and successful year with you and your children.

Sincerely yours,
The administrators and teachers of the Canyon Public Schools

New Courses, Buildings, Teachers Greet New WT Students Next Week

Much that is new will greet students at West Texas State College when they arrive on campus Monday to open the fall semester.

There will be new buildings, new faculty members, a new freshman counseling program, new courses, and new registration arrangements.

WT is expecting a sizeable increase in enrollment this fall, and activity starts Sunday when dormitories open. Freshmen will be given an orientation program and take psychological tests at 1:30 p. m. Monday.

They will report for an advisement session at 8 a. m. Tuesday and will begin registering that day at 1 p. m. They continue registering at 8 a. m. until noon Wednesday, when sophomores and upperclassmen start registering. Classes begin Thursday afternoon.

Plans for the semester's activities will be made Sunday and Monday at a meeting of the Student Senate and a group of campus leaders comprising the Advisory Council.

The group will discuss such topics as school spirit, Homecoming, freshman initiation, and the town and county club projects. The meeting starts in the Student Union building at 1:30 p. m. Sunday.

President James P. Cornette has announced the appointment of more than a dozen new faculty members and a number of faculty replacements in anticipation of an increased student body.

He also has announced the awarding of contracts to build a new campus power plant and the replacement of old windows in the Administration Building.

Ready for student use are additions to Cousins and Stafford halls for women and men, and nearing completion are parts of the block-long additions to Randall Hall for women.

Other dormitory lounges have acquired new furniture, along with Cousins Hall.

Expected to be ready Monday are two new church student centers, which bring to four the number of such centers on the campus. Work has progressed on the Christian-Presbyterian center across from Randall Hall, and the new $40,000 Church of Christ center is ready for occupancy.

With the move of Canyon's grade schools into a new building, the WT Education Building has been opened for more classroom space. The building has been remodeled, and all education, English, geography, and modern languages classes will meet there.

Six new courses to be offered for the first time this fall have been approved in the departments of geology, economics, sociology, business administration, and journalism.

A junior course in "Stratigraphy" will be given this fall in geology, and a companion course, "Sedimentation," will be offered next spring.

The new economics course is titled "The Price System," while the sociology offering, a senior course, is "The Sociology of Childhood."

Three graduate courses in business administration are surveys in management, finance, and real estate.

Journalism's new offerings are a six-hour course in "History and Principles of Journalism," and a junior course surveying "Communications and Public Opinion."

Abstractor Charged With Felony Crime

A. B. Duncan, Randall County abstractor for a quarter-of-a-century, was arraigned before Randall County Judge Roy Joe Stevens last Thursday on charges of knowingly filing a forged deed, a felony.

He was released after posting $2,000 bond.

Duncan was charged on a complaint signed by Charlie Sutton alleging that Duncan filed a deed in the county clerk's office bearing a signature purporting to be that of H. James, formerly of Happy and Amarillo. The deed was filed in April, 1955, and is dated in 1927. Judge Stevens said James has been dead "four or five years."

Dist. Atty. A. W. Lair said Duncan has made a statement to him and Sheriff L. S. Johnston in connection with the charges.

Dist. Atty. Lair said the case will be presented to the Randall County Grand Jury for action sometime this month.

Duncan, 55, lives at 1809 Third Avenue.

37 More Pupils Make Total 1,087

An additional 37 pupils enrolled in Canyon schools up until Tuesday afternoon, to swell the total to 1,087 for all 12 grades.

The largest class in the entire system is the third grade, with 126 attending classes. Second largest is the sixth grade with 107, followed by the second with 105.

By grades the enrollment is: First, 104; second, 105; third, 126; fourth, 85; fifth, 92; sixth, 107; seventh, 77; eighth, 87; freshman, 79; sophomore, 81; junior, 82; and senior, 62.

The average daily attendance last year was 1,015.

Joyce Hill and her friend, Rosa Vilcher, of Cienfuegos, Cuba, left Sept. 1 to return to Cuba after a month's visit with Joyce's parents, Mr. and Mrs. George Hill. Joyce is a missionary and teaches in the Eliza Bowman School, a Methodist supported institution.

Floydada First Opponent for Eagles

Canyon High's 1955 football season begins Friday night in Floydada with the Eagles going in under an age and injury handicap.

"We're young and ambitious, but they have winning ways," Head Coach Guy Harrison said Tuesday afternoon. "They've won two district championships in the last three years."

He said Floydada's first string represents 12 letters in football, as does Canyon's; but the Whirlwind team has seven senior and four juniors. The Canyon Eagles tentative starting lineup includes three seniors, five juniors and three sophomores.

Laid out because of injuries are Jack Pruett, first string senior center and co-captain of the team; senior fullback Bobby Phillips and junior halfback Roland O'Donald.

Pruett was knocked out last week during a blocking practice when an old wrist injury was hurt again. At first, it was believed the wrist had been fractured, but doctors later said it was a re-injury and Pruett might be able to return to play in another week instead of four weeks.

Phillips has an injured shoulder and O'Donald, one of the fastest men on the team, is out with a cut on his foot.

To make up for the injuries, the lineup for the first game has been shifted, Coach Harrison said.

Co-captain Hubert Green, normally an end, has been shifted to Pruett's spot at center. Guard C. B. Stone will play in Green's spot and tackle Jerome Edwards will be a guard in Stone's place.

Floydada uses both the T-formation and double wing on offense while Canyon sticks to the Split-T.

"This is going to be a tough game. We don't know too much about our opponents, but those winning ways will help them," Coach Harrison said.

The Eagle squad had a practice scrimmage against Class A Clarendon Saturday night. The team had two practice sessions a day for a week-and-a-half before school started, then switched to one-a-day. Floydada had the same number of daily practice sessions.

The Eagles will weigh in somewhat heavier on the line, but will be lighter in the backfield. The Whirlwind line will average 165 pounds, while the Eagle line will average 177 pounds.

Floydada's backfield averages 153 and the Canyon backfield averages 150 pounds.

The Eagle tentative starting lineup includes:

Ends, Leonard Miller, 165 pounds, 5 feet 11, sophomore, B squad, No. 80; and C. B. Stone, 165, 5'11, junior, 2 letters, No. 61.

Tackles, Elston Burkham, 200, 5'10, junior, one letter, No. 71; and Richard Burgess, 215, 6'2, sophomore, one letter.

Guards, Jerome Edwards, 175, 6'1, senior, one letter, No. 74; and Garrell Davenport, 160, 5'9, junior, one letter, No. 64.

Center, Hubert Green, 165, 5'11, senior, two letters, No. 84, captain.

Quarterback, Author Pruett, 145, 5'10, sophomore, B squad, No. 22.

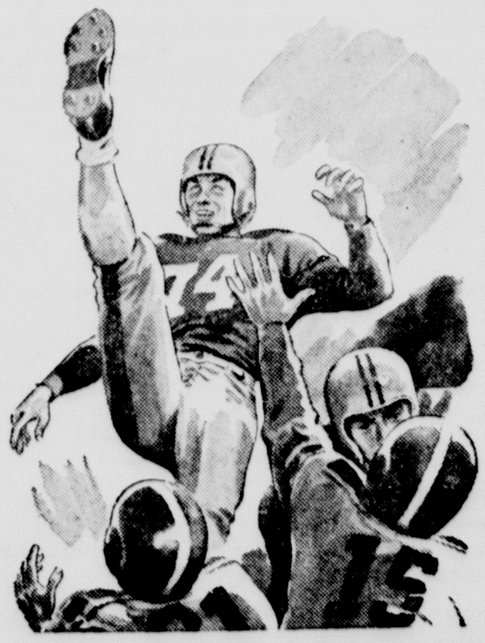
Halfbacks, Garland Ruthart, 140, 5'7, senior, squad, No. 20; and Harlie Adams, 155, 5'11, junior, one letter, No. 25.

Fullback, Don Britain, 150, 5'10, junior, two letters, No. 30.

Tickets to the game in Floydada will be on sale at the gates beginning at 6:30 p. m. Gametime is 8 p. m. Prices are $1 for adults and 50 cents for students.

The Eagle Band will perform during the halftime, and will be seated in the north section on the west side of the Floydada field.

Coach Harrison said he would like for a large delegation to attend the first game to help the young Eagles gain their wings.



EDITORIAL

Views and Comments

A week ago Tuesday, someone chose the boss' car and drove it away from its parking spot in front of the courthouse. At first, everyone, including the boss, thought someone was pulling a prank and treated the loss as a joke.

But, when it hadn't showed up Wednesday morning, it was no longer a joke.

There haven't been many cases of auto theft in Canyon. Most people have the idea that "it can't happen here, and if it does it won't happen to me."

And, since Tuesday we've been told by a great number of people, "I generally leave my keys in the car when I park, but I'm going to quit."

Curiosity being the thing that makes newspapers tick, we decided to check around and see how many citizens are leaving an engraved invitation for car thieves.

Friday afternoon we walked around the square, looking in every parked car for keys.

If we'd been of the frame of mind to help ourselves to a different auto, we could have had our choice of practically any make and model.

At the time we walked around the square, there were 109 cars parked.

Nineteen had the keys stuck in the ignition.

(There would have been 20 cars with keys, but we told Roland Black what we were going to do, and he sneaked his out ahead of time.)

At any rate, that's almost 20 per cent of the cars around the square whose owners were inviting thieves to help themselves.

Now, a car thief doesn't need to have the keys in order to drive a car away—he can wire around the ignition—but if the keys are in the car, he has a much easier time.

Training yourself to take the keys from your car is a bit of trouble, but soon habit takes over and putting the keys in your pocket or purse becomes automatic. It's worth a try, anyway.

• • •

Last week's *Ochiltree County Herald* has an editorial on the changing styles in education. In it, the writer says, "If they (the children) can't spell verisimiliture, the chances are they can't do it—and neither can you."

Probably, the writer meant "verisimilitude," and it is verisimilar that he can't spell it either.

However, in the next column, the editor had written a veritable verisimilitude. "The amount of sleep required by individuals varies—except that each person needs just five minutes more," he said.

• • •

The past week has been long-face and head-shaking week in Canyon, what with the 1955 tax statements from the city and notices of the meeting of the county board of equalization being put in the mails.

It's odd how people are quite interested in major improvements when they are proposed and how eager they are to back up bond elections. Yet, when it comes to tax-paying time, the interest seems to take a quick back seat, and woe over "my taxes are too high" comes to the foreground.

• • •

But, then, most folks think any tax is too much tax. For a long time now, we Americans have gotten used to using what seems to be "free" public money.

We all look for our governments to do things for our benefit, but we aren't too happy (in fact, we're downright unhappy) when it comes time to pay taxes for the things our governments have done.

That's not so unusual, though. A lot of us buy on credit and time-payments, and we're not happy when it comes time to pay those bills, either.

Actually, taxes are nothing but bills sent to us by our governments for those services rendered us by them.

• • •

People are funny animals, anyway.

People think laws regulating traffic are fine, and they do a lot to cut down the accident and death rates on the highways and streets. But, people think those laws apply to someone else and many get extremely indignant when they are stopped by policemen for speeding or running past stop signs.

People get mad at their neighbors who sit on a board of equalization—on the theory that their neighbors are the ones doing the taxing.

People are prone to sit back and let someone else do whatever is needed, then gripe when it isn't done to suit them. When they see a bad situation, people say, "Somebody should do something about that." And they never think that maybe they are "somebody."

People know more about coaching football teams than the coaches do, and have ready solutions for what to do to have a better team and win more games. Probably football coaches get more free, useless, unsolicited advice than anyone else, including newspaper editors.

• • •

And, so, it's our turn.

You can't get Coaches Harrison or Kimbrough to admit it, but the season prospects for both Canyon High and West Texas State are pretty good.

It's hard to gripe about last year's district race in high school football. The loss to Phillips was a hard one, but actually could be expected.

Coach Harrison moans about his lack of depth, and doesn't predict that he will win any games. But on the other hand, he doesn't predict that he will lose any.

Coach Kimbrough has been seen with a small smile on his face lately. When he talked to the Lions Club a couple of weeks ago he said he'd worn his crying towel out and didn't have one. He admits his team will be better, but tempers that by saying the other teams in the conference will be better, too.

Actually, the Buffaloes are bound to be much better. Last year the team was top-heavy with freshmen, and this year it is top-heavy with returnees.

Whaddy'a know? No advice.

• • •

The Canyon Public School offered parents an inexpensive insurance plan to cover their youngsters while at school during the year. In fact, they offered two plans—one costing $1 and one costing $2.

The school itself will add $5 to policies on pupils who will be engaged in interscholastic athletics for complete coverage on any injuries suffered while playing or practicing.

When we went through school, those plans weren't available, and our parents had to shell out for repairing damage done to us in the rough-and-tumble of everyday going to school and teasing the girls.

As we remember, some of those girls we teased, we shouldn't have because they were a bit tougher than we were and could get the best of us. And, when someone got the best of us, our parents usually had to put out some money for bandaging.

I GIVE YOU TEXAS

By BOYCE HOUSE

A good friend of mine is Rip Galloway. He has had a varied career. When we first met, he was a linotype operator for the Ranger Daily Times; then he started a job printing shop of his own and later he published a weekly newspaper in Ranger. After that, he served as county clerk for several terms, then became manager of the Ranger Chamber of Commerce, the position he now holds. Except while a county official, he has spent all these years in Ranger.

I was editor of Rip's weekly paper. He is a gentlemanly, conscientious man and was easy to work with. I spent one day a week (press day) in Ranger; the rest of the time I was getting out a daily paper in Eastland. One day, I asked Rip if he couldn't give me a raise. He replied, "The business won't justify it; when it does, I'll be glad to."

About six weeks later, when I got my weekly check, it was $5 more. I said, "You can't do this to me; you can't raise my pay without notifying me so I will know and can put on more steam and earn the extra money."

So after a friendly argument, he tore the check up, wrote another for the old amount and said, "I'm serving notice on you now that your pay is going to be hiked next week, whether you like it or not!"

One of the most unusual experiences in my long newspaper career occurred while I was editor of Rip's weekly. A house some 20 miles from Ranger had burned down, taking the lives of a family a man and his wife and, as recalled now, three children. We planned to issue an "extra" and beat the daily paper with the news. So instead of driving back, I called the office by long distance without even taking time to write the article and dictated it over the phone. Rip would repeat each six or eight words in a loud tone and Joe Thompson, at the linotype, would set up what he had just finished saying. So, when I got through talking, the article was in type and before I got back to Ranger, our "extra" was on the street and several hundred copies were sold.

Rip Galloway is a fine Texan.

THE PRICE OF PEACE

Over the counter of the pawnshop a musician handed his violin with the brief comment: "How much?"

The proprietor examined the instrument and then replied: "One pound."

"One pound," snorted the musician. "That's ridiculous! Why, the neighbors offered me more than that."

ECONOMY AT PEAK

Prosperity in the United States has continued to boom above levels never reached before in its history, according to Sinclair Weeks, Secretary of Commerce. Mr. Weeks urged, "Let's not do anything to spoil it," warning business men against overconfidence and speculation.

WHO'S Right

1. When was the Unknown Soldier of World War II entombed in Arlington National Cemetery?
2. How old is the United Nations organization?
3. What is the name of Andrew Jackson's home?
4. Where is it located?
5. To what political party did George Washington belong?
6. What is a bookmaker or a "bookie?"
7. With what science does "ornithology" deal?
8. With what disease do we associate the name "White Plague?"
9. Where is Patagonia?
10. What is the name of Thomas Jefferson's home?

The Answers . . .

1. On Memorial Day, 1951.
2. Ten years old on April 25th, 1955.
3. The Hermitage.
4. Just outside the city of Nashville, Tenn.
5. The Federalist.
6. A professional gambler who accepts bets on horse races.
7. Birds.
8. Tuberculosis.
9. A large area of land at the southern tip of South America, divided between Argentina and Chile.
10. Monticello.

Mines of World War II still menace ships.

Low grade uranium becomes Texans' pay dirt.

Bible Verse to Study

"Sirs, what must I do to be saved?"

1. Who asked this question?
2. Of whom was it asked?

Tri-State Fair Kicks Off Sept. 19 With Gigantic Parade in Amarillo

Citizens of the Golden Spread area may be justifiably proud of their region's most extravagant and spectacular Tri-State Fair of 1955 when the annual exposition opens in Amarillo Monday, Sept. 19, to continue through Saturday, Sept. 24.

Bigger, better, more exciting than ever before is the promise fair officials have proclaimed for the 31st week-long program of amusements, livestock, poultry, home economics, culinary, textile, arts, rabbit shows and similar events designed to please everybody.

Holiday on Ice, the fair's ice spectacle, will present eight indoor performances in Fair Park Coliseum, Monday through Saturday nights, with matinees on Friday and Saturday afternoons.

Two featured free acts will be presented twice daily on the fair grounds. Bill Attebury's Sky Kings, who perform on sway poles 100 feet above the ground, are certain to please every fair patron, regardless of age. This death-defying act has never before been seen in this section.

Jack Andrews, his trained mule and Brahma bull, are being returned as another free act by popular demand after an absence of two years.

New and old-time favorites are among the more than 20 rides and scores of gaudy carnival attractions to be seen on this year's Tri-State Fair midway set-up by Bill Hames Greater Shows, the southwest's largest railroad show.

Another first for this year's Tri-State Fair will be the Shetland Pony Show. The remarkable interest that almost all persons have in these small animals is expected to be reflected in this added attraction.

The thousands of persons throughout the Tri-State area who like to sing just for the fun of it will welcome the news that this year's fair again will feature a Country Singing Convention.

This second annual event will be held only on Saturday afternoon, Sept. 24, in the Sports Arena, beginning at 1 o'clock. There will be no charge to the Sports Arena for either participants or listeners.

Visitors to this year's fair will see major improvements in their exposition grounds and facilities, with increased parking room inside the fair plant. Among improvements is a $125,000 addition to Fair Park Coliseum, slated for completion in time for the fair.

The 1955 Tri-State Fair will open with a gigantic parade along Amarillo's Polk Street at 11 a. m., Sept. 19. More than 20 visiting high school bands from communities throughout the Golden Spread region will join with Amarillo school bands, the Amarillo Air Force Band, the Shrine Drum and Bugle Corps, and the Shrine's Circus Band, to provide music for the initial spectacle.

Davy Crockett has a unit reserved for this year's parade, which will also feature 1000 uniformed troops from AAFB, and hundreds of Army, Marine, Navy, ROTC, National Guard and other military reserve units.

Numerous cities however will not send organized delegations, headed by their high school bands, to the fair until later in the week.

Advance entries in the livestock, swine, poultry, rabbit, women's home demonstration club and county exhibits are at an all-time high in advance of the fair's opening.

Attendance this year is expected to keep pace with all previous fairs, which annually set new records.

Sports Quiz

1. Who won the world pro golf title recently?
2. Who is the manager of the St. Louis Cardinals?
3. Who is Dick Donovan?
4. What three-year-old recently won the American Derby?
5. Who recently won the U. S. Open chess tourney?

THE ANSWERS:

1. Julius Boros.
2. Harry Walker.
3. Chicago White Sox pitcher.
4. Swaps.
5. Nicholas Rossolimo.

GROSS NATIONAL PRODUCT

The gross national product (the value of goods and services produced by the nation) ran at an annual rate of $385,000,000,000 in the second quarter of this year. The total of the second quarter is $10,000,000,000 above the annual rate reported for the first quarter of this year and $16,000,000,000 higher than that for the second quarter of 1953, the previous record year for the nation's economy.

WASHINGTON AND "SMALL BUSINESS"

By C. WILSON HARDER

● Senator Estes Kefauver heads special committee investigating causes of juvenile delinquency. This problem is shared by independent business as well as all other citizens.

* * *

It is possible in time study will reveal that nation's big cities where huge industry is concentrated provide breeding ground for youthful erring. As a result, taxpayers will again be asked to dig up to provide more recreational facilities to once again help overcome the evil of centralization.

C. W. Harder

* * *

Yet, it cannot escape public notice that on a global basis, the U. S. taxpayer is being forced to encourage delinquency among juvenile nations.

* * *

Mutual Cooperation Administration, is the newest name for long line of foreign aid administrations that started with Marshall Plan to shovel out billions of dollars, and the end is so far nowhere in sight.

* * *

In fact, it now looks as if basic economy of some nations is built on expectation of U.S. free enterprise system donating to them.

* * *

Back in dim past when first billions were voted for Marshall Plan, basic premise was that Americans would help free people, ravaged by war's cruelty, to get on their feet. The warm heart that beats in American responded.

* * *

But since that time, and many billions later, it becomes apparent part of foreign aid is being used as global blackmail scheme.

* * *

For example, it is without question Tito's Yugoslavia is Communist. It is true that Tito and Kremlin had family spat, but only difference between Communism in Yugoslavia and Communism in Russia is size of respective nations.

* * *

Yet American dollars are being taken to finance Communism. Yugoslavia, which has already received a billion or two, is still on the receiving end.

* * *

For example, just other day U. S. foreign aid gave Yugoslavia another $3 million, this time in form of unmanufactured wool. Undoubtedly, in due time, Yugoslavia will manufacture this wool and by devious courses use it as trade stuff with nations behind Iron Curtain, thus strengthening a little bit more economy of Communist empire.

* * *

Actually, there are only two ways of ridding the world of communism's horror. One is total war which no one wants. The other is to keep outside help from the Communistic empire and let it sink as population finally realizes inefficient, rotten system offers nothing but despair.

* * *

But the despair that causes overthrows will never be reached as long as even a trickle of outside help gets in. This is a basic concept of human nature little understood by many.

* * *

Unfortunately, only a few, including ex-president Herbert Hoover, Sen. Wm. Knowland, seem to understand this hard fact of the 20th Century. A $3 million gift to communist Yugoslavia is worth a $100 million or more to communist propagandists to encourage their faithful followers, to throw fear into potential rebels.

* * *

It is hard to believe, as official circles seem trying to establish by inference, that there are good and bad communists.

'Fly Factor' Makes Flies Feed Faster

COLLEGE STATION—**Scientists are hot on the trail of a mysterious substance which may make fly control much easier.**

The clue, according to Extension Entomologist F. M. Fuller, was supplied by Army scientists several years ago when they discovered that as flies feed, the material upon which they are feeding becomes more attractive to other flies.

Apparently feeding flies deposit some unknown substance which is attractive to other flies.

Now, entomologists of the USDA's research laboratory in Orlando, Fla., have actually collected some of the material which they refer to as "fly factor."

By dissolving sugar upon which flies have fed in water, acetone or ether and then removing the sugar, "fly factor" was collected.

Fuller says the entomologists, turned detectives, don't know what they have, but it works. Fresh sugar treated with "fly factor" attracted more flies than untreated sugar.

Efforts at isolation of the material will continue and the secret of its chemical makeup studied.

If it could be produced artificially, Fuller believes it would greatly increase the effectiveness of present fly-killing insecticides by making them more attractive to flies.

Ellis GOOD! BETTER! BEST! CHILE

Cow Care Leaflet Issued by Service

COLLE STATION—Cow care, according to R. E. Burleson and A. M. Meekma, extension dairy husbandmen, is giving the dairy cow an opportunity to produce at her best.

Breeding has fixed the high point of her inherited ability to produce but her actual producing ability can be decreased by withholding the opportunity she needs.

They point out that many cows have more ability than opportunity. These cows will produce more for some dairymen because their opportunities are looked after more carefully and they are working for better managers.

The specialists have prepared, and it's available from your local county agent, a leaflet—L-247, Cow Care that is chuck-full of helpful hints on making opportunities for the dairy animal from calfhood right on through old age.

They say the care the growing heifer receives largely determines the kind of cow she will be and that well-bred, well-developed heifers make large, productive cows.

The well-developed two-year-old heifer will return during her first lactation period just about enough income to pay for her keep from birth and good cow care gives her an opportunity to make a profit for her owner during the rest of her life.

The leaflet contains sections on growing the heifer; the two-year-old; the dry cow; the fresh cow and finally the milking cow. The information given is brief and to the point but they say the whole story in summary is simple, a good cow plus good cow care equals good production.

FROM THE HILLS OF ABERDEEN

A taxicab passenger, arriving at his destination, paid the fare but did not tip the driver.

"You forgot something," said the driver.

"What?" asked the passenger in honest bewilderment, slapping his pockets and peering back into the cab.

"Your bagpipes," retorted the driver.

Photographers working in direct color will someday replace portrait painters as interpreters for special likenesses, according to a paper read before the Photographers' Association of America.

Married

MRS. JAMES D. CHEYNE

* * * * * * * *

Peggy Moore, Don Cheyne Repeat Wedding Vows at Chapel Aug. 27

Beautiful simplicity characterized the wedding on Saturday, Aug. 27, at 7:30 in the evening, at Joseph A. Hill Chapel, when Peggy Jean Moore, daughter of Mrs. Dan Usery, and Don Cheyne, son of Mr. and Mrs. James Cheyne of Chowchilla, Calif., spoke their vows with Rev. Strauss Atkinson officiating.

At either side of the cross-centered altar were baskets of pink and white gladiolas and candelabra with white candles.

Marian Forbau, of Oklahoma City was organist. She played "Thine Alone" and "Oh Promise Me" by Victor Herbert; "Indian Love Call" by Frimal; "Always" by Berlin; "Melody" by Thomas; and the traditional wedding marches. "To a Wild Rose" by MacDowell was background music for the ceremony.

Anita Tooley of Plainview sang "Through the Years" by Vincent Youmans, and "Bless This House" by May H. Baake.

Don Kennedy of Wichita Falls, nephew of the bride, lighted the candles, and Mrs. Lee Kennedy was her sister's matron-of-honor. She wore a ballerina length dress of pale pink taffeta and carried a nosegay of pink carnations and tube roses.

The bride, in a white taffeta and lace, ballerina length gown, and carrying a white Bible on which rested a white orchid, entered on the arm of her brother-in-law, Lee Kennedy, who gave her in marriage.

The best man was Bill Cheyne of Canyon, and ushers were Weldon Hacker and Edward Wells of Canyon.

Immediately after the ceremony the young couple received good wishes of family and friends at a reception at 1906 Sixth Avenue. In the receiving line were Mrs. Usery, Mr. and Mrs. Kennedy and the bride and groom.

The table from which the wedding cake and punch were served was centered with the bouquet of the matron-of-honor, and garden flowers in pastel shades, and pink and white gladiolas were used throughout the house.

Assisting at the reception were Claudia Neelley, Mrs. Robert Cleveland, Mrs. L. M. Cousins, Mrs. T. V. Reeves, Mrs. Joe Duckworth and Betty, Martha Johnson, Jane Cheyne, Mrs. Harvey Bell, Aniella Neeley and Anita Cleveland.

After a short trip to Taos, N. M., Mr. and Mrs. Cheyne are at home in Canyon, where he will continue his study and she her work as secretary to the dean of West Texas State College.

Out of town guests were Mr. and Mrs. Flaudie Gallman of Pampa; Mrs. Laura Duckworth of Vernon; Mr. and Mrs. Ray Cheyne, Mr. and Mrs. W. D. Cheyne, June and Jean, Mr. and Mrs. Tom Galvin, Mrs. Alice Hood and Ruth Jane Hood, Mrs. Bob Cleveland, Anielia and Ann, Mr. and Mrs. Joe Duckworth and Betty, all of Amarillo; Mr. and Mrs. Harvey Bell, Craig and Terry, of Lubbock; Mrs. Bud Forbau of Oklahoma City; Mr. and Mrs. E. H. Tooley, Anita Tooley, Mrs. Edwina Martin and Van, all of Plainview.

Lubbock Girl Wins SPPA Award

LUBBOCK—A record-setting girl journalist from Lubbock High School has been named winner of the first annual $100 South Plains Press Association Freshman Journalism Scholarship at Texas Tech.

She is 18-year-old Gloria Waller who graduated from Lubbock High this past spring with the following distinctions:

1. First junior ever appointed to edit The Westerner World, student weekly.

2. First student to be named twice to the editorship.

3. Only editor to lead that newspaper to three, and possibly four, consecutive All-American ratings. Under her direction, The Westerner World received an All-American rating during both semesters in 1953-54 and during the fall semester of 1954-55. Spring ratings for 1955 have not yet been released.

Her selection was announced jointly by Dr. William E. Hall, head of Tech's journalism department, and Neil Vanzant, SPPA president and publisher of the Gaines County News. Selection was made on a basis of ability and interest in journalism. Applications were restricted to entering freshmen residing in towns whose newspapers are SPPA members.

Martha Bagley Feted by Shower

Martha Bagley was honored with a surprise personal shower Aug. 29 by employes of the First National Bank in the home of Mrs. Bill Black.

Cookies, ice cream and punch were served to the guests.

Martha will become the bride of A3/c Johnnie Hardin from Owensboro, Ky. He is stationed at the Amarillo Air Force Base.

Teachers: I have just the plants you need for sun or shade in your schoolroom. Stevens Floral. t1

Mrs. G. B. Bourland, who is recovering from her recent illness, has had several visitors this last week. Guests over the weekend were Mr. and Mrs. Gordon Bourland and family of Fort Worth. Her grandsons, Freddy Bill and Gaylord, stopped by Sunday morning. Freddy Bill will attend the University of Texas this fall. On Saturday afternoon, a daughter and son-in-law, Mr. and Mrs. W. S. Bennett, were visitors.

Mr. and Mrs. Cloys Knox and Mrs. H. J. Greenfield and son, Jerry Don, spent last weekend at Ft. Carson, Colo., with Mrs. Greenfield's husband who is stationed there.

Mrs. L. E. Holtman of Ft. Worth visited with her son, Deputy Sheriff L. D. Caldwell, from Friday to Monday. This was her first visit to Canyon in 1½ years.

Visitors in the P. M. Wilson home were Mr. and Mrs. Warren H. Wilson and family of Fritch.

Engaged

PEGGY BONDS

* * *

Mr. and Mrs. W. F. Bonds are announcing the engagement and approaching marriage of their daughter, Peggy, to James Scott, son of Mr. and Mrs. H. M. Scott of Borger. The wedding will take place at the Joseph A. Hill Chapel Sept. 24.

Fairview Breezes

Visitors in the G. E. Wesley home recently were Mr. and Mrs. Coye Elkins of Tulia, Mrs. Serena Bryan, Tom Rogers and Patricia Patterson.

Mr. and Mrs. Glen Marqwess and their daughter and son-in-law visited with Mrs. Serena Bryan a short time one day last week. The Marqwesses lived here several years ago. Mrs. Marqwess was the former Emma Lansom, and they were visiting Mrs. Lena B. Lansom who is in Neblett Hospital.

Visiting in this community Sunday afternoon were Mr. and Mrs. Richard Evans.

Guests in the J. W. Wesley home Sunday were Mr. and Mrs. Earl Landtroop, Mr. and Mrs. Frank Rogers and Sandford Sharpes.

E. M. Wilson, accompanied by Mr. and Mrs. Erwin Wilson and children, traveled to Austin Sunday to visit with E. M. Wilson's brother and wife, Mr. and Mrs. Eugene Wilson. Mrs. Eppia Hamblen and daughter of Arizona are to join the group in Austin.

Mrs. Allie Simon left for her home in Hobbs after visiting with her aunt, Mrs. M. F. Evans, about two weeks. Mrs. Evans is also hostess to her grandchildren, Mr. and Mrs. Jimmie Evans and children. Mrs. Jimmy Evans was formerly Florene Evans.

Mrs. Sarah Russell, mother of Mrs. Hoyle Shipman, is in Neblett Hospital for surgery.

Those attending the Shipman reunion at Seymour over the weekend were Mr. and Mrs. H. H. Shipman and children, Mr. and Mrs. Rayford Shipman and children, and Hoyle Shipman and children.

Due to a lack of members present a regular meeting of the Home Demonstration Club could not be held, but Mrs. Mona Hildreth did give an interesting demonstration on fabrics, sewing tips, and care of sewing machines. Those present were Edna Wilson, Madge Sutton, Grace Schaeffer, and the hostess, Mrs. J. W. Wesley.

La Quita Patterson of West Texas State and Bettie Patterson of San Jacinto Beauty School were home over the weekend.

S. F. Sharpes of Cisco is working for J. W. Wesley.

State Choir Sings At Baptist Church

The Baptist Student Union State Choir under the direction of Wes Forbis presented a program of sacred music at the First Baptist Church on Aug. 31.

One memebr of the group, Claranell Brown, is a junior at WT.

Included in the program were various arrangements of hymns and spirituals with the accompaniment of organ, piano, kettle drums and trumpets.

As the main objective of the choir is to present an hour of worship, and not just a concert, personal talks and prayers were also given by choral members.

With the choir was the BSU state president, John Brannon Jr., who explained briefly the purpose of BSU and its influence on the campuses of Texas.

The choir, which is composed of 65 college young people from Texas, was organized three years ago and takes an annual extensive tour. Preparation previous to the tour is taken at a training center in Dallas.

PRICE OF PLEASURE

Dumus the younger was once recognized by a cabman he hired, and when it came time to pay the fare, the cabby refused, saying he could not accept payment from such a great artist.

"But what can I do for you, my good friend?"

"Well, I have here a little play I have written, and if you could just read it over—"

Thereafter Dumus always paid.

"I managed to slip in quietly," says a Briton who crash-landed his glider on the field during a cricket match at Lasham, England. If he'd landed over here during a pro football game, he'd have been kicked for an extra point at the half.

The number of employed women and girls in this country has gone over the 20-million mark for the first time, according to the United States Census Bureau.

Turboprop airliner era is about to start in the United States.

Worry of FALSE TEETH Slipping or Irritating?

Don't be embarrassed by loose false teeth slipping, dropping or wobbling when you eat, talk or laugh. Just sprinkle a little FASTEETH on your plates. This pleasant powder gives a remarkable sense of added comfort and security by holding plates more firmly. No gummy, gooey, pasty taste or feeling. It's alkaline (non-acid). Get FASTEETH at any drug counter.

A motor rewound here has its full rated horsepower — the work is superlatively done by specialists and is wholly guaranteed. Regardless of type, size, make — we can service your electric motors perfectly, economically.

Wirt Electric

PRETTY CLASSY "MOTIVE" POWER—The locomotives, of course. Grand old girl at left is the historic, 80-year-old Virginia and Truckee's J. W. Boker, brought out of retirement to celebrate completion of an extension of California's McCloud River Railroad. High-stepping beauty at right is Southern Pacific's 4430, which pulls the Suntan Special from San Francisco to Santa Cruz, Calif. The girls? Jeannine Burris, left, and Nuvia Cabrera are the pretty examples of "motive" power which press agents use to put their pictures on the main line.

NEWS LETTER

FROM CONGRESSMAN WALTER ROGERS OF THE 18TH CONGRESSIONAL DISTRICT

The Panhandle Looks Good

The Texas Panhandle has always been a sort of garden spot when we had a little rain. That is exactly what it looks like now in the several sections which I have had the good fortune to visit.

The time element enters into the picture and prevents me from getting every place as quickly as I would like, but we have seen quite a bit of it and hope to get over the rest of it before long. Irrigation is cropping up all over the Panhandle and it can certainly change the picture.

I was down in Hall County the other day and things looked mighty good, both the irrigated and the dry land. Wheeler County is another place I had a chance to visit and it looks equally good.

However, we do need a good rain, and I have filed application for a four-inch "soaker," to be delivered over a period of about ten days. If this application is approved, we will hope that there will be no red tape in the delivery of the rain.

I have talked to people from every section of the Panhandle and get good reports on the prospects from all quarters. Of course, there are some exceptions, but we hope these will straighten out in the next 30 to 60 days.

It is too bad that the heavy rains that occurred in the eastern part of our country could not have been divided up over the whole country. Instead of billions of dollars worth of damage, there would have been billions of dollars worth of benefits.

Worrying about getting some rain may not be as bad as getting too much, like those poor folks did. One of my friends here said that if those rains had come out here during the drouth, the land would have soaked up the water so fast that it would have seemed like a mere sprinkle.

Most of the towns are looking fine. There are some vacancies in some of the cities that are dependent primarily upon agriculture.

We hope that this situation will be changed so that these cities can continue to prosper as they have in the past.

We have plenty of room for industry in this section of the country and hope that we can make it inviting to them.

It does you good to see the country expanding like this Panhandle section. Nothing is better medicine against communism than an expanding economy of a free people. We concern ourselves with many worries, but everything is going to work out fine and I think the picture will grow better as we move along.

Back to Washington For Committee Work

We will be on our way back to Washington when you get this letter. We have to get the children back in school and also have to get set for the committee work that has to be done this fall preparatory to the next session of Congress.

One of the committees on which I serve is the Interstate and Foreign Commerce Committee, which has jurisdiction over transportation in this country. The president has appointed a committee of Cabinet level to make a report on the transportation situation.

The committee on which I serve will work in connection with that Cabinet committee in trying to work out the many difficulties that will plague the transportation industry in our country.

This will require extensive hearings for which there is not sufficient time during a session of Congress.

There is also a problem incidental to this concerned with air transportation, which is also within the jurisdiction of this particular committee.

The requirements for information concerning these problems are great and we must get it together so that proper legislation can be enacted to insure a continued expansion of our economy under the free enterprise system.

As soon as possible after these investigations are concluded, I will of course, be back in the district and can be reached at 4-5631 in Pampa.

The children certainly had a wonderful time and are headed back for Washington most reluctantly. Their many good friends were very kind to them and they are deeply appreciative.

Mrs. Rogers and I are most humble in our deep appreciation for the many courtesies extended, and we hope that the opportunity will occur at an early date for us to reciprocate.

DOMESTIC ART

"Can you serve company?" asked the housewife when she was hiring the servant.

"Yes, mum; both ways."

"What do you mean?" asked the puzzled one.

"So's they'll come again, or stay away."

Help Keep Canyon Clean!

Open House Soon At Texaco Plant

Open House for the public will be held at The Texas Company's newly-modernized and expanded Amarillo Works Monday and Tuesday, Sept. 12 and 13, it was announced by S. W. Johnson, superintendent of the Works.

Visitation hours and arrangements will be announced later.

Residents of Amarillo and the Panhandle area will be welcome and conducted by special plant guides on a complete tour of the streamlined facilities of the Refinery, which is a gleaming addition to the city's industrial skyline.

Employes and their families also will be shown the new Catalytic Reforming Unit, the Polymerization Unit, and other installations of the latest type during the two days.

Kerry Franklin Joins Marines

Kerry N. Franklin, son of Mr. and Mrs. Roy S. Franklin of 2002 Eighth Avenue, enlisted in the U. S. Marine Corps on August 30 for a four year enlistment.

He is a graduate of Canyon High School and was attending West Texas State before his enlistment.

Pvt. Franklin was transferred to the Marine Recruit Depot in San Diego, Calif., for his basic training.

After ten weeks of basic training he will be sent to Camp Pendleton, Oceanside, Calif., for four weeks of advanced combat training, after which he will be sent to a school of another Marine Corps post or station for further training.

BARGAIN HUNTER

A woman was picked up for the fourth time trying to walk out of a New York department store with unpaid-for merchandise.

The store detective asked her: "Why do you insist on doing your shoplifting in this store?"

And the answer: "Where else could I find such bargains?"

Wheat Farmers...

Low-cost dieldrin seed treatment protects crops from wireworm damage

Treatment Costs Pennies Per Acre, Assures Better Stands of Grain

Newly seeded fields make good feeding grounds for true and false wireworms and other soil insects. If there is not enough moisture in the soil to permit quick sprouting, seeds are vulnerable to insect attack for several days. But the threat of wireworm damage should be recognized at all times.

A dieldrin *preventive seed treatment* is a sure way to protect wheat and other small grain seeds until they sprout.

Low-cost protection

It costs just pennies per acre to treat seed with dieldrin, but dollars per acre to feed the wireworms untreated seed! A dieldrin seed treatment prevents "spotty" stands . . . eliminates the expense of time and money for re-planting or sowing extra seed for the wireworms to feed on . . . assures you of a longer grazing period. And dieldrin does not harm plant development.

Compatible with fungicides

Dieldrin is compatible with fungicides . . . can be applied at the same time to save the expense and work of a double treatment. You can buy dieldrin-treated seed from your seed dealer, or treat the seed yourself. Dieldrin can be applied as a slurry, dry, or in a grain drill. A convenient method is to apply dieldrin to the seed in the grain drill as you plant. Follow directions on the label for the particular formulation you buy.

Less work at planting time

Seed can be treated now and stored until planting time. Dieldrin eliminates the rush of treating seed and planting within a few days. Dieldrin formulations are available throughout the wheat growing area. See your local supplier.

You don't need a "BUNDLE" to wrap up this BONUS-BARGAIN

Sometimes, a bargain is measured by how little you pay.

Sometimes, it's measured by how much you get.

But here's one that's a whopping bargain by *both* measures.

Because right now—for the leastest money of the year—you can buy the mostest Buick in history.

That, Mister, is because we're adding a profit-sharing *bonus* allowance on top of the long trade-in allowances we've been making all year.

And when we say the "mostest" Buick, we mean the most-wanted Buick ever built—the one that has broken every record in the book—outselling by far all other cars except the two most widely known smaller ones.

We mean the Buick that brings you the most for your money in terms of mighty V8 Power—of real family-size room—of bold fresh styling. The one that gives you the most buoyant ride ever born of all-coil springing.

And we mean the *only* car blessed by the smooth magic of Variable Pitch Dynaflow*—world's first transmission built on the switch-pitch principle of the modern plane's propeller.

Come on in. We're ready and waiting to make you the deal of your life on the most thrilling Buick ever.

**Variable Pitch Dynaflow is the only Dynaflow Buick builds today. It is standard on Roadmaster, optional at modest extra cost on other Series.*

1. Bonus Trade-in Allowance -biggest in our history

2. Bonus Buy -because Buick is the thrill of the year in style, power, performance, value

3. Bonus Resale -because a Buick always resells high—brings you more money when you trade it in

This Big Buick SPECIAL
2-door, 6-passenger Sedan, Model 48 (illustrated),
delivers locally for less than some models of the smaller cars
(And the price drops a lot lower with the whopping big allowance we'll make on your present car!)

Thrill of the year is Buick—

Biggest-selling Buick in History! *(So we're trading high, wide- and then some!)*

WHEN BETTER AUTOMOBILES ARE BUILT BUICK WILL BUILD THEM

Enjoy cooled, filtered air for less than you think with Buick's AIRCONDITIONER It's a genuine Frigidaire

Too Many Committees, Meet Often, Too Long, Says Atty. Gen. Shepperd

By JOHN BEN SHEPPERD
Texas Attorney General

(Editor's Note: This is the second of a series of four articles written by the Texas Attorney General on the problem of state board membership in Texas. Other articles will follow in later issues.)

In the week from May 3 to May 9, 1955, six major boards on which the Attorney General serves held ten meetings, each lasting more than two hours and requiring additional hours of preparation.

On August 3, four ex-officio boards of which the Attorney General is a member—the State Building Commission, the School and Veterans' Land Boards and the Banking Commission — met from 8 a. m. to 4 p. m.

A man can spend so much time feeding the chicken that he doesn't have time to plow.

Service on these boards varies from handling details which are purely administrative to deciding large scale policy matters which require the experience of a man specializing in a particular field.

The Board of Trustees of the Employes Retirement System passes on the application of every individual employe who wants to retire. These citizens should be able to receive their retirement savings without the special attention of the Attorney General, the Chairman of the Highway Commission, and the Chairman of the Board of Control, who serve on this Board.

On the other hand there is no reason why the Governor and the Attorney General should be saddled with the huge job of deciding the site of the new state office buildings. There has been argument and legislative debate for a number of decades as to whether to use the vacant lot owned by the State across the street from the Capitol.

This new Constitutional board not only has to decide on this political hot potato, but is required to hire a full new staff and tackle a number of building and repair jobs such as "modernizing and remodeling the old Land Office building, installing safety treads on the capitol stairs, and air conditioning the Legislative chambers by 1957."

It looks like future Attorneys General will have to study engineering or municipal planning to qualify for the job.

Certainly a good many of these construction and planning functons should have been given to an already existing agency—the Board of Control, with its three full time paid members, and its staff of architects, designers and engineers.

The volume of business handled by many state boards has ballooned beyond the wildest imagination of those who set up the boards.

The situation is like that of the little girl who was sent to Grandmother's house with a bucket of sour dough. Before she got there the sun began to swell the dough, which exploded the bucket, enveloped the girl and rolled down on Grandmother's house like an avalanche.

Take the Intangible Tax Board. When it was established in 1906, only the railroads were included in its tax jurisdiction. Recent years have seen the addition of ferry companies, bridge companies, common motor carriers, turnpikes, oil pipelines, common carrier pipelines, motor bus companies and many other types of concerns in our rapidly expanding transportation system.

Or take the School Land Board, which succeeded the old Mineral Board. In 1939 it handled $1,788,635 worth of leases. Recently, the Board has passed on lease sales amounting to over 32 million dollars at one sitting.

That's a lot of money for a man to have an "ex-officio" responsibility for.

They say government establishes a bureau in the morning and by night it's a full bedroom suite. Some of these boards have reached the proportions of a furniture factory.

Some constitutional officers get a little relief in that their first assistant may act in their absence. But these men are in the same position as the elected official—busy with their primary duties. They don't have time to qualify as a bank examiner, an accountant or an engineer.

Actually, and unavoidably, board members who sit in an ex-officio capacity are usually only window-dressing. The Legislature put on each of these boards a man who was expert in that particular field and who had the agency staff to carry out the work.

These boards are given responsibility for governmental functions which are largely administrative and have to be handled by one man.

The problem of the Veterans' Land Board illustrates this clearly. The work of the program—receiving applications, making surveys and appraisals, examining titles, platting, clearing up legal tangles, checking veterans qualifications and executing contracts—is handled of necessity in the Land Office.

This was clearly the intent of the Legislature since they made the employes part of the Land Office staff and charged the Land Commissioner with keeping the records and approving the contracts.

The Board was required to act only on the issuance of bonds, matters of policy and forfeiture by veterans.

This is direct contrast to duties of a Board like the Railroad Commission composed of three full time elected officials whose duty is to regulate oil and gas production, enforce conservation practices and set rates.

The matters they handle are equally technical and they require also a large staff of assistants, but their decisions are primarily judicial and are made after holding public fact-finding hearings.

The administration of the Veterans' and Program was established by the Legislature in writing the law. A number of changes in the law were made by the past session of the Legislature to tighten up the procedures.

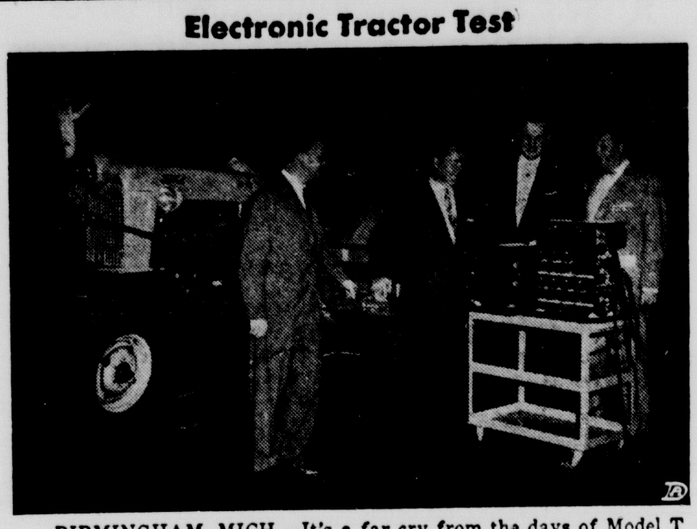
However, the Legislature, in their debate on the program refused a number of amendments to prohibit the Land Commissioner from administering the program. This procedure seemed to them the only way of handling the thousands of veterans applications under this program.

The Veterans' Land Board is not the only ex-officio board on which the other two members must depend on the Chairman and his permanent staff. This caused criticism of the Board during the investigations, but such criticism must be properly laid to the whole ex-officio system.

(Another article on this subject will appear soon.)

Mexican cotton growers fear a possible U. S. subsidy.

Electronic Tractor Test



BIRMINGHAM, MICH.—It's a far cry from the days of Model T cars and the Fordson tractors as Henry Ford II, right, president, and other officials of Ford Motor Company inspect electronic testing equipment at the company's new multi-million dollar Farm Machinery Research and Engineering Center, here. Irving A. Duffy, second from right, vice president and general manager, Tractor and Implement Division, is explaining how a recording oscillograph is used to accurately measure the strength of modern farm equipment. Others shown are Benson Ford, vice president, left, and Ernest R. Breech, chairman of the board.

Two Flocks Makes Twice as Many Eggs

COLLEGE STATION—A tough problem for the poultryman continues to be too many eggs in one season with a resulting drop in prices and too few in the seasons when egg prices are highest.

Ben Wormeli, extension poultry specialist, says the answer is simple—a two flock system of egg production.

The two flock system, he explains, just means starting a laying flock early in the spring and another in the fall to pick up when the spring started hens begin to drop off in production.

The specialist lists at least five advantages for the two flock system. The problem of too many small eggs could be sharply reduced by having them come at different times of the year thus relieving the market glut.

Too, chick brooding facilities could be used more yearly on a year-round basis with a corresponding reduction in the cost of producing the hen.

Eggs could be produced at a more uniform rate throughout the year thus keeping production more nearly in line with demand.

Quality drops in eggs laid during the last few months of the hen's laying year and the two flock system would help solve this problem. Wormeli says in one area where poultrymen strive to produce only top quality eggs, a requirement of the organization is that replacement chicks be put down three times each year.

He also says that a chief reason for the success of the cage method of handling laying hens is that production is kept on an even keel the year round.

And another major advantage, he adds, the egg producer by following the two flock program can have a dependable year-round income from his poultry enterprise.

Wormeli points out that presently about 50 percent of the chicks hatched in Texas for flock replacements are placed during the first quarter of the year; about 37 per cent the second; 6 per cent the third and 7 the fourth quarter. This, he adds, is strong evidence that a new flock could be producing when egg prices are normally at their peak—in the fall and winter months.

East Germany's barbers must collect hair they snip off customers' heads, package it and send it to the government-run raw material reserves commission. Anyone failing to comply will be snatched bald-headed.

Treat Seed with
HEPTACHLOR
...your best insurance for a healthy, profitable
WHEAT CROP

Economical—Heptachlor costs only a few pennies per acre.

Effective—Residual effectiveness protects planted seeds from soil insects.

Easy to Apply—No special planting equipment needed.

Safe to Use—Does not reduce germinating and root growth when used as recommended.

WHERE WIREWORMS ARE PRESENT, EXPERIMENT STATION TESTS HAVE SHOWN THAT HEPTACHLOR TREATED SEED DEFINITELY INCREASES STAND COUNT AND PRODUCES STRONGER, HEALTHIER PLANTS.

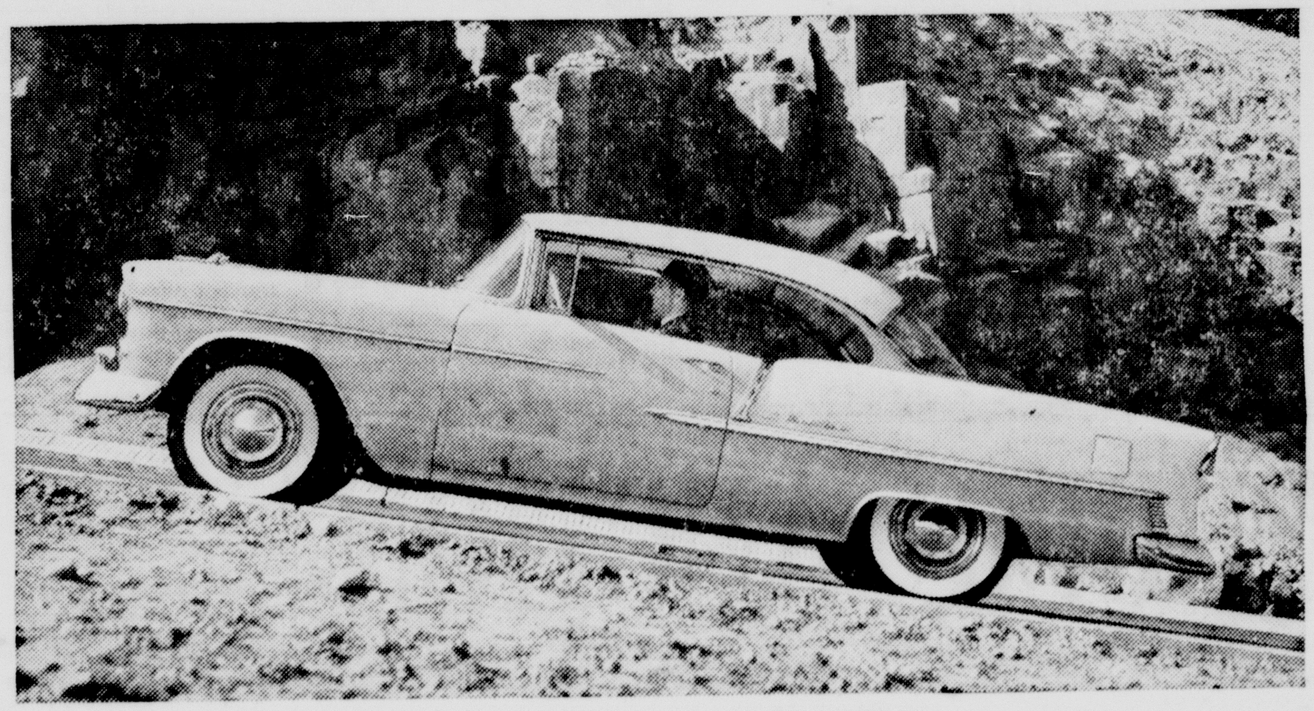
ASTONISHING PERFORMANCE!
And that's only half the Chevrolet story



Great Features back up Chevrolet Performance: *Anti-Dive Braking—Ball-Race Steering—Outrigger Rear Springs—Body by Fisher—12-Volt Electrical System—Nine Engine-Drive Choices.*

A lightning-quick power punch that makes your driving safer! That's one of the reasons for Chevrolet's winning stock car record—but it's not the *only* one. Not by a long shot!

The sizzling acceleration of Chevrolet's new "Turbo-Fire V8" is half the story; but it takes a lot more besides. Cornering and handling qualities really count on the NASCAR* Short Track circuit where Chevrolet's king—just as they count for safer and more pleasant highway driving. And even the high-priced cars don't slice through a tight turn as neatly—or handle as sweetly—as this beauty. The record proves it!

Come on in and sample all the things that give Chevrolet its winning ways. We're keeping a key ready for you!

*National Association for Stock Car Auto Racing

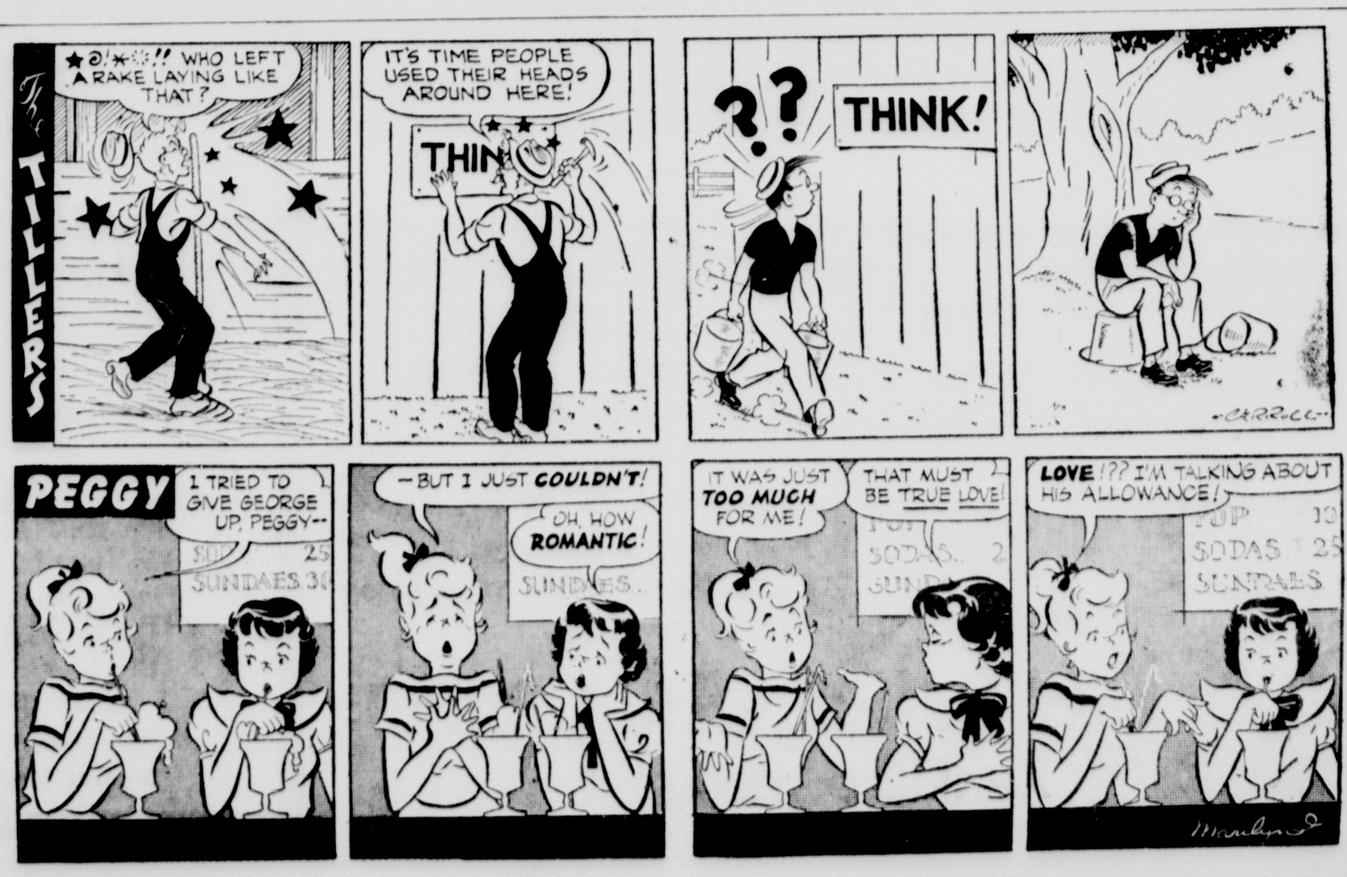
IMPERIAL CHEVROLET COMPANY



Local Men Start Drilling Firm

M. A. Hollabaugh and J. C. Bellah have announced the organization of the Hol-Bel Drilling Co. in Canyon.

The company will specialize in irrigation drilling and pumps.

Bellah said they have purchased new Walker-Neer rotary drilling equipment especially designed for going through the red beds to water.

The company will have a complete pump sales and service organization and will continue windmill service, Bellah said.

Mr. and Mrs. Bill Knighton and children moved last week to Terrill where he is to be educational director of the Grace Temple Baptist Church. Bill will also attend the seminary for educational directors.

Alberta Brown visited the Bob Glenns in Midland over the weekend.

Town and Country Club Enjoys Social

Mr. and Mrs. Albert Byars were hosts at the Town and Country Club meeting Thursday evening.

"42" was enjoyed at two tables.

Iced watermelon was served to Mr. and Mrs. Jack Foster, Mr. and Mrs. Ed Reynolds, Mr. and Mrs. Harley Burrus, Mr. and Mrs. Farmer Brown, Mr. and Mrs. Tom Lair, and Mrs. Grace Costley.

Mrs. Florence Stephenson was hostess to Mrs. Blanch Koller and Mrs. Sue Langford of Fort Worth over the weekend.

Mr. and Mrs. Dock Loudder and children returned home Monday night after visiting her parents, Mr. and Mrs. Max Stallings, in Napa, Calif. They came by Castroville, Texas, where they enrolled Debs in school.

Otta Lee Elkins was hostess last week to Mr. and Mrs. J. B. Brooks of Dallas.

AMARILLO, TEXAS

Dairymen Guests of Rotary Tuesday

Dairymen on the Randall County Dairy Tour were guests of the Rotary Club Tuesday.

Dr. M. R. Cullihan was in charge of the program. He said there are 56 dairies in the milk shed, producing $75,000 per month.

Dick Burleson of College Station said the dairy industry, while a big business, was likewise a risky business. He recalled that records are very essential so that each dairyman know exactly what he was doing. There are three ways to feed cows: Too little, too much, or just enough. He urged that too much emphasis should not be placed on the sire, as the dam of a good dairy cow was likewise essential.

Dwight Billian of Hereford, president of the eight county dairymen's organization, Charter Elliff of Tulia, owner of the top Jersey herd in Texas, were present. More than 50 members of the association joined in the meal.

Visitors were Jimmie Flynn and Eugene Britain, junior Rotarians; David Kaplan, Bob Wear, Hollis Cook, all of Canyon; Hans Boehring of Tulia; E. Kanther, D. A. Denman, Roy Ratcliff, Guy A. Carlander, Tom Cartwright, Murel Edquist, R. G. Mill, C. A. Harrison, Joe Martin, Harold Stevenson, Hal Davis, all of Amarillo.

Garden Club Session Cancelled Thursday

The Garden Club will not meet tomorrow as previously scheduled due to the large number of members that are out of town.

Mr. and Mrs. Fred Marshall returned recently from Hugo, Okla., where they attended the funeral of Mrs. Marshall's brother-in-law, R. H. Campbell, who died of a heart attack in Houston while visiting his daughter, Mrs. Dorothy McAlpine. Mr. and Mrs. Campbell formerly lived east of Canyon.

Mr. and Mrs. Edward Lehnick of Friona spent the weekend with his parents, Mr. and Mrs. Ray Fullerton.

Vacationing in the southern states for several days recently were Mr. and Mrs. Russell Thompson.

Small nations weigh the use of nuclear power reactors.

State Capitol NEWS

AUSTIN—Many Texas public schools are holding integration plans in abeyance pending action by the State Supreme Court.

But there is no indication the high court will rush to consider the Big Spring test case ahead of its normal schedule.

District court there ruled invalid that part of Texas law which requires public schools to be segregated. Appeal is being made by the Texas Citizens Council in an effort to prevent payment of state money to non-segregated schools.

Both sides had expressed hope for an early decision before the Supreme Court's October term.

Meanwhile, towns such as Waco and Laredo, which had planned to begin desegregation this fall, backed off rather than take a "legal risk." Others, like San Antonio, decided to go ahead, but reserved the right to review the policy in the light of new state-level decisions.

Charter Request Studied

Application of the anti-integration Texas Citizens Council for a state charter bumped into a delay in the Secretary of State's office.

Sec. of State A. M. Muldrow questioned whether the council's organization is for a "lawful purpose" in view of the Supreme Court decision outlawing segregation.

Muldrow said he might ask the attorney general's department for a ruling.

White Disputes Red Visitors

State Agriculture Commissioner John C. White took a dim view of the visiting Russian farm delegation.

Farming methods are American's greatest strength, White said, but Russia's weakest. "We might as well sell them guns," he declared.

In Washington officials were undecided whether the Texans who sold some 65 head of Santa Gertrudis cattle to the visitors would be allowed to export them to Russia.

Touring Soviets expressed a desire to buy farm machinery seen in other parts of the country, but the Texas cattle deal was the only actual purchase. At present there is only a trickle of trade between the two countries.

State, Commerce and Foreign Agriculture officials pondered the decision, suggested that public opinion would be a strong factor.

Record Employment Expected

Harvest and reopening of schools are expected to bring Texas new employment records during September.

Public school cafeteria workers will add thousands to the payrolls, said the Texas Employment Commission. A continued rise is forecast through the fall.

A new high in the average paycheck was hit in July, according to TEC. Holiday overtime plus wage increases brought the boost.

Druggists Receive Vaccine

Texas druggists are having their first experience in dispensing Salk polio vaccine.

State Health Department officials reported 50,000 doses sent to Texas last week by Wyeth Laboratories of Pennsylvania. Of these, 42,000 go to drug stores, 8,000 to the Health Department for public agencies.

Some stores had already received vaccine; others were still awaiting their shipments.

Patients have been asked to contact their doctors who will buy through the retail outlets.

Texas free immunization program for first and second grade school children is expected to be completed by Oct. 1. Eli Lilly Company of Indiana sent 144,603 more shots to Texas for that purpose.

Health Department statistics showed polio coming to its seasonal slackening off period. Only 80 new cases were reported last week, compared to 98 the week before. Total for the year is now 1196.

Business Peak Passed

Texas business expansion has apparently passed a peak, but no severe decline is expected.

Crest of the current rise was in March, the University of Texas Bureau of Business Research reported. In July the business index dropped two per cent from June.

Three factors the UT economists believe, bar the possibility of a major recession. They are population growth, the rising standard of living and the high proportion of new investment being made in Texas.

Retail sales, already at record levels, are expected to soar further, making this the largest sales year.

Building boomed also, with a January-July total almost one-third greater than for 1954. A two per cent drop in construction during July was considered "seasonal."

Parr Trial Postponed

Trial site of George Parr on charges of income tax evasion awaits action by the US Supreme Court.

South Texas Political Boss Parr last week won an indefinite postponement of the case scheduled to begin Sept. 6 in federal district court in Austin.

Contending that he would receive a fairer trial in Laredo than in Austin, Parr seeks to have the case moved to the southern federal district. He was originally indicted in Houston on charges of failing to pay some $85,000 in income taxes. This indictment was dismissed and an identical one entered in Austin.

Appealed by Parr, the change was upheld by Circuit Court in New Orleans. A continuance was granted in Austin where Parr's attorneys filed appeals in the Supreme Court.

Bible Chair Gives Five Credit Courses

Five courses leading to college credit in Bible will be offered by the Baptist Bible Chair at West Texas State College this fall.

Offered on Monday-Wednesday-Friday will be Bible 101, Survey of the Old Testament, a foundation course in the literature and history of the Old Testament, at 8 a. m.; Bible 234, Bible Lands and Places, a study of the geography of the Bible lands, at 10 a. m.; and Bible 201, New Testament Greek, designed primarily for ministers, ministerial students and volunteer religious workers, 11 a. m.

Night classes at the Baptist Center will be of Bible 201, The Life of Christ, on Tuesday from 6:30 to 9 p. m., and Bible 209, How the Bible Came to this Generation, on Thursday nights from 7-7:50 p. m.

Courses are open to any college student regardless of classification, and up to 12 hours of credit can be received at West Texas State College toward a degree.

Hours in Bible are transferable to colleges and universities pending acceptance by the particular school.

IMPULSE BUYING

Impulse buying — an unplanned purchase of items not urgently needed — accounts for nearly one-fifth of all purchases of clothing, furniture, appliances, automobiles and homes, according to a study of consumer buying habits by the University of Illinois. The study revealed that three of five purchases are made because they cannot be postponed. Of these "necessary" expenditures, about one in three—usually for clothing or automobile accessories such as tires — has caught the purchaser by surprise.

The Soviet Union has announced that it is reducing the size of its armed forces by 640,000 men.

Mr. and Mrs. James K. Ledbetter are the proud parents of a girl born Sept. 9.

BRAND-NEW CAR IN CRASH

Shawnee, Okla. — Twenty minutes after J. Paul Jackson, 32, of Holdenville, drove his 1955 car out of a showroom, his auto and a 1940 model car collided on U. S. Highway 270. Jackson's car was a total wreck, with damages estimated at $1,500.

Amarillo Firm Plans Mausoleum

An Amarillo firm has announced that it has taken options on enough grave spaces in Dreamland Cemetery to provide a 30 by 40 foot plot for construction of a mausoleum.

The company, Custom Mausoleums of Amarillo, will make a survey of Canyon before taking up the option and beginning construction, according to Emil Prati of the company.

Prati said the proposed mausoleum would have to be pre-sold before it could be built. He estimated a per-crypt cost of "about $390" to prospective buyers. The company has plans for 60 and 80-crypt building.

Mrs. Tommie Pierce spent last week in Floydada with her mother, Mrs. S. L. Rushing, who is ill. Mrs. Pierce will spend each weekend with her for an indefinite time.

Wayside News

Rev. Merle Weathers filled his regular appointment Sunday. Several church members have attended the revival at Vigo Park the past week where Rev. Roland Moore is the evangelist.

Dinner guests in the W. R. Franklin home last Sunday were Mr. and Mrs. Wiley Morris, Mr. and Mrs. Roy Franklin and Kerry, Sudy, Sharon, and Sonny, and Mrs. Virgil Tucker and Virginia Walker, all of Canyon.

Kerry Franklin left Aug. 20 for San Diego, Calif., for the Marine base where he will take his boot training.

The Wayside school has recently bought and installed a 20-foot-deep freezer. School began Sept. 5 with Mr. and Mrs. E. C. Franklin as teachers.

Visiting Mr. and Mrs. Bill Stockett last Thursday were Mr. and Mrs. Roy Stockett of Tulia.

Willie Modisette, Royce, Marian, and Fay were Happy callers Wednesday evening.

Mrs. Charles Kennedy and Robert visited in Canyon Saturday.

Mr. and Mrs. Ira Schrib, Patsy, Jimmie and Nancy left Saturday to attend a Shipman family reunion at Seymour.

A business trip was made to Claude Friday by Mr. and Mrs. E. C. Franklin.

Charles Kennedy attended a farm program in Claude Thursday.

Mrs. Gary Watson, Darral and Gayle, Robert and Richard Kennedy and Jimmie Schrib went to the swimming pool in Canyon Friday evening.

W. R. Franklin has been doing carpenter work for Mrs. Virgil Tucker this week in Canyon.

IMPERIAL CHEVROLET CO.

Around the Town . .

By Mrs. Arthur C. Haley, Jr.

Mrs. Lee Foster is one of the busiest women I know. She recently spent a week in Greeley, Colo., attending a leadership training conference for Presbyterian women. She had the honor of being the organist and pianist for the conference. Three hundred and fifty women attended the sessions from 11 states and the Philippines Islands.

Mrs. Foster also is reviewing books this winter. She has 15 invitations so far for reviews. We wish her well in her new occupation.

Circle the third Thursday night of each month as P-TA night. The executive committee met Monday night and voted to continue the meetings on the third Thursday night of each month at 7:45 in the high school cafeteria. The first meeting will include a social hour. We hope all parents will find time to attend this meeting.

Mrs. Albert Petitt honored her parents with a dinner Aug. 31. This dinner was to celebrate the C. V. Wilkinson's anniversary which was Aug. 11, Mr. Wilkinson's birthday which was Aug. 16, and Mrs. Wilkinson's birthday which was Aug. 31.

Guests for the occasion were the honorees, Bob Wilkinson, a niece, Janet Sunderland of Kansas City, Nancy Kay Tomlinson and Mrs. Petitt and her three children.

It is a rather peculiar sensation to come out of the office and find that your car has been stolen. Even though the keys were still in our possession, someone evidently knew just how to drive a car away without a key. Believe me, from now on we are locking our car.

October 19th will be a big day in Canyon. The Panhandle Personnel Association will meet in an all day session at West Texas State College. This organization is made up of personnel officials of a number of big oil companies and other companies. This meeting will give the officials a chance to see WT, and the students will have a chance to see their future bosses. About 400 people are expected to attend the session. This is quite an honor for Canyon and WT.

Mrs. Betty Rockwell recently entertained a group of women who were all enrolled at WT together and who lived in Randall Hall. All who were able to attend had a good time talking over the "good old days."

Mr. and Mrs. Jack Hughes have bought the Ray Cole house and have moved to their new home. Mr. Hughes is going to plant native wild fruits in his backyard. We shall go see him in a year or so when the different plants start bearing fruit.

The Hughes' two children, Martha and David, were quite thrilled with their new home. Mrs. Hughes is an outstanding writer for magazines and is correspondent for several daily papers. Mr. Hughes is associated with the Panhandle-Plains Historical Museum.

Mrs. Clay Cooper and Mary Patricia Haley returned from their trip abroad Saturday night by plane. The others are coming home on the ship and will dock in New York Sept. 16. They have many fascinating experiences to tell. It may not have seemed long to them but to us at home, those weeks were quite long.

Reports from the Girl Scout leaders show good response on the part of parents in offering to help with the troops. A number of people met Tuesday night to clean up the Girl Scout house in preparation for the many activities which will take place there this year. There were eight troops last year, but there will be more this year.

Mrs. Bryan McDonald has a recipe for chicken-spaghetti that is delicious. Boil one chicken with two whole stalks of celery and one onion until the chicken is tender. Cool. Take meat off bones and cut up. Skin off fat from stock. Use stock to boil one box of spaghetti. Add 1 cup sugar and 2 cans condensed tomato soup. Place spaghetti and chicken in large pan, grate cheese over top and bake in oven at 325 degrees until it comes to a boil.

Teach me to do thy will,
for thou art my God!
Let thy good spirit lead me
on a level path!
(Psalms 143:10.)

Alcohol School Is Scheduled

Northwest Texas Methodist Conference will have a School of Alcohol Studies And Christian Action at Ceta Canyon Methodist Camp ground Sept. 19 through Sept. 22.

Sessions will be open to ministers, laymen, woman's society of Christian service and Wesleyan Service Guild members, Methodist Men, Methodist Youth Fellowship members, members of local church temperance committees and teachers.

Staff members for the school will include Rev. J. Frank Peery of Amarillo, director; Rev. Wayne Womer, Virginia Church Temperance council, Richmond, Va.; Dr. Albion Roy King, Cornell College, Mt. Vernon, Ia.; Dr. Tom Shipp, Lovers Lane Methodist Church, Dallas; Roger Burgess, General Board of Temperance, The Methodist Church, Washington, D. C.; Rev. Albert Tucker, Texas Alcohol-Narcotics Education, Inc., Dallas; Rev. Cloy Lyles, book agent, Merkel; and Rev. Alby Cockrell, song leader, Tulia.

Methodist district superintendents are to conduct the worship services.

Activities will get under way at 2:30 p. m. with registration and room assignment followed by supper, orientation and inspirational addresses. It will close Thursday with the noon meal.

Rev. Rollo Davidson of First Methodist Church, Seymour, is handling registrations for the school.

Peery says that this is the first school of its type to be held in the conference.

BURIED IN WEDDING DRESS

Glendale, Calif. — Susan Ball, beautiful actress, who recently died of cancer, just a year after her marriage to Actor Richard Long, was buried in her wedding dress. Dr. Louis H. Evans, Presbyterian minister, who conducted the services, later said, "On the stage of life she won an Oscar for courage by the help of God. She taught us what it was like to wear the body like a loose garment. It never constricted her soul nor strangled her spirit."

Reaction in Washington to the Soviet announcement on reducing armed forces was cautiously optimistic, with officials calling the development "potentially encouraging."

Bennett-Hacker Repeat Nuptials

Repeating nuptial vows recently were Mildred Bennett, daughter of Mr. and Mrs. Harold Bennett of Stratford, and Alvin Hacker of Canyon, son of Mr. and Mrs. W. J. Hacker of Hereford.

The service was read by Rev. Jim Pickens of Vega in the garden of the Bennett home.

Emma Jane Brown of Hereford was maid-of-honor, and the bride's sister, Mrs. Bill Salisbury, was matron - of - honor. Their dresses were of orchid net over taffeta.

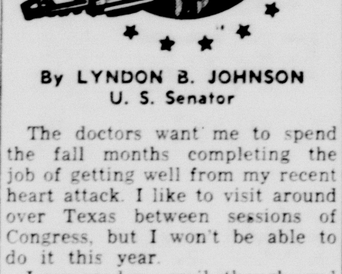
Best man was Joe Hacker of Hereford, brother of the bridegroom. Morris Hacker, also a brother, was groomsman.

Given in marriage by her father, the bride was attired in a gown of white lace and net over satin. She carried a white Bible marked with a white orchid.

The mother of the bride, Mrs. Bennett, wore a black and white Bemberg sheer dress, and the bridegroom's mother, Mrs. Hacker, chose a pink linen dress. Their corsages were of white carnations.

A reception honoring the bridal party was given following the ceremony.

The couple is to live in Canyon. Mrs. Hacker is a summer graduate of West Texas State College.



By LYNDON B. JOHNSON
U. S. Senator

The doctors want me to spend the fall months completing the job of getting well from my recent heart attack. I like to visit around over Texas between sessions of Congress, but I won't be able to do it this year.

I can read my mail, though, and I hope Texans everywhere will write me their ideas about matters important to Texas. I can be reached by mail for the next few months at 215 Federal Bldg., Austin.

WATER: When I first went to Congress 18 years ago, some of my friends thought I was hipped on the subject of water projects. Now, I don't think anybody believes we can possibly overestimate the importance of the water problem. It's the biggest problem we have in Texas.

I have tried to contribute everything I can toward carrying forward individual projects. In fact I try to get construction started on a new Texas project every year.

Last year, we obtained an appropriation to begin construction on Ferrell's Bridge Dam and Reservoir, in Jefferson County; this project will cost a total of $22,000,000, Army Engineers estimate.

This year, we were able to get an appropriation of $400,000 to start construction work on Canyon Dam on the Guadalupe River. Next year, I hope we can get construction funds for the badly needed Waco Dam.

UPSTREAM PROGRAM: These big individual projects are vitally necessary. In addition, we need to build many, many small dams across streams all over Texas. The upstream program is an essential part of our soil and water conservation efforts.

GULF BASIN SURVEY: We were able, during the recent session of Congress, to get an appropriation of $578,000 for the Bureau of Reclamation to carry forward the study of water utilization in the Gulf Basin. This follows a far-reaching appraisal of the Texas water problem, made by the Bureau at my request.

I have asked the Bureau for a report on when, where and how this money is to be spent. This work, coordinated with action by the State Government and the local units of government, can result in extensive changes for the better in the Texas water situation.

I realize there are conflicts over water uses. But I am one who believes that Texans can get together and work out these conflicts in an equitable way. We can, I am confident, solve our water problem. We must. We will.

HEEDS DAD; TAKES $32,000

New York. — Although he is 55 years old, Gino Prato, takes his father's advice. Prato, destined to receive $32,000 on a radio-TV give-away program, could have taken the chance of answering just one more question and if, answering correctly received $64,000, received a cable from his father in Italy, which advised: "Stop where you are. That's enough this way. Regards, Daddy." So, Prato took a check for the $32,000 he had won, saying, "Because I take my daddy's advice all my life, I accept."

COTTON PROGRAM

The Eisenhower Administration intends to stand pat on its cotton policy. An official announcement explained that, for the rest of 1955 at least, it will not reduce support prices of cotton to spur lagging sales abroad.

THIEF IN BELFRY

Dayton, Ky. — A man had set up housekeeping in the belfry of St. John Episcopal Church. Police and church officials, investigating a report, found a bed made of linens taken from the altar, with kneeling pads from the pews serving as pillows; eight candles also from the altar, were stuck in niches in the stone wall. Tea, cheese and paper cups taken from the kitchen in the church basement, provided food.

STABBED BY BEEF

Hartford, Conn. — In an unusual accident, Peter Pappas, 56-year-old cook, was stabbed by a side of beef. Pappas told hospital authorities he dropped the meat on a table. It hit a knife, which flipped up, and struck him, inflicting a painful wound.

Marriage Licenses

James Nathan Perkins and Barbara Jean McGuffey, Aug. 29.

A. J. McCarley and Opal Dean Jackson, Sept. 2.

U. S. farmers are raising more pigs this year.

Every time we decide for sure that EVERYTHING happens to us, we hear of another fellow's troubles and cheer up.

A few nights ago we opened a freezer of homemade ice cream — with a yard full of guests — only to find a gallon of strawberry ice cream soda sloshing around inside. That, we knew, was the last word in catastrophe! Still living in the horse-and-buggy, hand-turned freezer era, we panicked. A quick-thinking friend, who was helping serve, saved that one. She got the electric motor out and in no time at all had the stuff frozen to a proper firmness.

Last night we went to a backyard supper where the guests buzzed happily in the candlelight, completely unaware of a much worse mishap in the kitchen; the chicken spaghetti for 40 people, made the day before and stored in the refrigerator, had spoiled! The hostesses, with only minutes to spare, dashed out to a barbecue spot and bought ready-cooked half-chickens, found a grocery store open and got frozen vegetables, french bread and butter to heat and serve. Luckily, the fruit salad and dessert didn't have to be replaced.

We sprain a toe and lament our fate — but go to a party and count among the women present a broken right thumb, a right arm in a cast, and a splintered ankle bone.

All of us are inclined to magnify our own troubles — or virtues — and to minimize the other fellow's. Obviously, if we took everyone else's problems as seriously as we do our own, there wouldn't be enough sympathy to go around. Or if we prized his virtues as highly as our own, we'd shrink in our own estimation. On the other hand, if we took our own as lightly as we do his, wouldn't life be monotonous?

News In Canyon 25 Years Ago

(Taken from the files of The Canyon News of from Sept. 4, 1930)

More than 1,000 people went to the annual Wayside Home Demonstration Fair and Old Settlers Reunion. They ate eight barbecued beeves for lunch, looked at exhibits during the morning and saw a rodeo and baseball game in the afternoon. (Whitfield beat Wayside 7 to 5.) But most of all, there was visiting all day long.

Two purebred Jersey cows from the C. C. Stewart's herd were put on the official test Honor Roll.

Some 800 teachers from the Panhandle-Plains area attended a three day institute of the West Texas Teachers Association, which was held at the college. Distinguished speakers from all over the nation were on the program.

Mr. and Mrs. Tom Knighton and Mr. and Mrs. Clyde Warwick entertained the Friday Afternoon club Friday night.

Mr. and Mrs. Herschel Coffee left for California where they were to enroll in a university for graduate study.

Social Pioneers To Meet Sept. 15

The Social Pioneers will meet with Mr. and Mrs. W. T. Davis Thursday, Sept. 15, at 7 p. m. Each person attending is to bring a dish of food, a plate, glass, and silverware.

SURPLUS COMMODITIES

Despite words of caution from the State Department, the Agriculture Department is beginning a worldwide drive to sell stored United States surplus farm commodities. The Department has hired a sales manager from private industry and is counting on new sales approaches to start moving the $8,500,000,000 worth of farm surpluses the Commodity Credit Corporation will have stored away by the end of this year.

Bowden Tells Lions Of Mexico Vacation

John Bowden told the Lions Club last week of his 5,000-mile vacation trip through Mexico.

He advised in detail what preparations should be made before taking a long trip in Mexico, even down to, "It rains every day at 4 o'clock, right on the dot, so take a raincoat."

Visitors to the club were Irving Daiff, Wichita, Kan., J. G. Cleavinger, Alhambra, Calif., J. D. Owens and Warren Lowry, both of Amarillo, and C. T. Franks.

Baptist Students Attend Retreat

PLAINVIEW—Wayland College students will join with students from Texas Technological College and West Texas State College in a Baptist Student Union Retreat next weekend, Sept. 9-10, at Plains Baptist Assembly, near Floydada, according to Mrs. James Bottorff, director of religious activities.

The theme of "Time Out" has been chosen by the planning committee, which includes Bruce McIver, BSU secretary at Tech, and John Petry, BSU secretary at WT, and Mrs. Bottorff.

Program personalities include Dr. W. F. Howard, Dallas, State BSU secretary, who will bring the closing message on Saturday night, as well as a Saturday morning message.

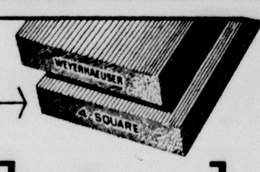
Dean Bryan Robinson of Wayland College will preside over a panel discussion on "Facing the Problem." Panel members are: Rev. Strauss Atkinson, pastor of the First Baptist Church of Canyon; John Ward, music and education director at First Baptist Church, Plainview; Billie Cramer, youth director, First Baptist Church, Lubbock; and J. L. Harden, Wayland business manager.

A feature of the Friday night program will also be reports on summer missions by Edwina Schavajas, Texas Tech student who went to Jamaica; Frances Cunningham, WT student who went to Mexico; and Marilyn Jones, Wayland senior who went to Hawaii.

Throughout the two day retreat special music and fun features will be furnished by students from the three colleges which have been holding retreats together for the past four years. The first meal will be served at noon Friday and the last on Saturday night.

Buy, Build, Live in Canyon!

This brand name on lumber also brings you kiln-dried



LUMBER FOR BETTER BUILDING VALUES

Did you know that kiln-dried lumber lasts for generations, works and handles easily, is strong and stable?

When excess moisture is removed, strength and rigidity are increased to a marked degree. The wood sustains its dimensional character. When lumber is seasoned, sawing, planing, sanding and drilling are easy.

Every piece of lumber bearing the brand name "Weyerhaeuser 4-Square" has been carefully seasoned. Every piece offers you the benefits of kiln-drying plus many other Weyerhaeuser lumber refinements.

Protect your building investment. Use this uniformly high quality lumber. We stock a wide variety of superior kiln-dried lumber items.

TAYLOR & SONS

RECIPE OF THE WEEK
By Mary Lee Taylor

Quick Apple Coffee Cake

1 cup brown sugar
2 Tablespoons butter or margarine
½ teaspoon cinnamon
2 cups biscuit mix
½ cup sugar
1 well-beaten egg
½ cup Pet Evaporated Milk
3 Tablespoons water
½ cup raisins
1 cup thinly sliced, pared apples

Mix brown sugar, butter and cinnamon with fork or pastry blender. Let stand until needed. Mix in a 2-qt. bowl biscuit mix and sugar. Stir in quickly a mixture of well-beaten egg, milk and water. (Batter will not be smooth.) Pour into a greased 9-in. square cake pan. Sprinkle raisins over batter. Arrange apples over raisins. Sprinkle brown sugar mixture over apples. Bake on center rack in 400 oven (hot) 30 min., or until brown. Serve warm.
